Description

"In a meeting", the 50-foot Bertram, was the pick of the bunch when owner the current owner upgraded from a trailer boat five years ago. The brief at the time was simple; a good solid, dry, ocean going vessel. Fast forward to now and the Bertram has been given a new lease of life by way of two new Volvo Penta D13-1000HP engines installed in 2020, Choosing re-power over repair came down to dollars and sense. Having owned large farms throughout his extensive career, The current owner has a fair idea about machinery and the expected life cycle of equipment, opting to re-power when the original V10 1050HP engines grew tired.

The performance of the vessel is amazing, for a boat of this size the power is impressive, and the fuel figures are great, the current owner added "It's a completely different boat, improved top speed, better cruise speed and with less propeller pitch they can now comfortably troll at five knots without working the throttles".

Bertram 510 has a 3 Cabin layout with generous galley, saloon, and dinette for entertaining or relaxing with the family, the cockpit has loads of room for multiple anglers to fight fish simultaneously or have a relaxing beer at the end of the day.

2017

Complete overhaul of running gear

Bead blasted hull, checked for osmosis, none found

New Generator

2018

New Garmin GPS

New Ensuite Toilet

New Inverter

2019
