Description

With 2100hp below her deck, this elegant lady has the power to perform.

A top speed of 31 knots may not sound all that impressive to anyone used to flying around in a 1900kg bowrider capable of doing almost double that speed. But put into the right context (a Manhattan 66 Flybridge weighs almost 40,000kg fully loaded) and this boat displays awesome power.

But there is another side to this boat potential buyers may not realise. This 72ft 6in motoryacht can be easily handled by a husband and wife team. No skipper is required, unless you want one. Her super smooth and responsive electronic throttles and gearshift levers, coupled with the electric bow thruster and all controlled by the Dockmate yacht controller system make slipping this girl sideways into even the tightest of berths a breeze.

Topside might be the best place to drive from, but it's also an entertainer's dream. It is open plan with plenty of seating and an excellent barbeque, making it the ideal place to crack a few cold beers and drink the odd glass of Champus as you watch the sun go down over calm seas.

Heading up the Flybridge Motoryacht range, the Sunseeker Manhattan 66 was developed with scale in mind. Here, the designers have extended the limits of space and luxury.

Living areas on the main deck are also large and light, the wide beam creating plenty of space for family and friends. The aft cockpit further extends this airy living space and is an ideal place to sit in the cool of the evening and share a drink.

This vessel is available for inspections TODAY so contact Jackson on (+61) 420 322 262 or Jules on (+61) 452 554 191 for all enquiries.
