Description

2017 Technohull 999 SeaDNA

Sydney Harbour

This Australian delivered 34-foot, 70-knot RIB tailored by Technohull was built for extreme performance with twin 400hp racing outboards, offering top-end speeds up to 70 knots. Technohull has designed the boat for speed and offshore comfort with the pilot and their passenger sitting on wraparound shock-absorbing seats, faced with full touchscreen controls from both RayMarine and Mercury.

Along with three conventional gauges, the major controls in the boat are handled by the giant touchscreen on the console with 12' touchscreen with maps and sounder, high-performance marine Bluetooth audio/Mp3 subwoofers and amplifier. The helm area is protected by a T-Top (hardtop) for those long days in the upcoming Australian summer.

A wet bar/sink, bowthruster, electric toilet, extra LED special deck/underwater lights, remote anchor winch control, shore power, and charger ensure the 999 is fully optioned. In early 2024 this show stopper had a extensive refurb including tube restoration, teak restoration, paint restoration, new speakers and new Lamborghini style latte diamond stitched trim throughout

For further information please contact Tom Kutt or Brock Rodwell from Ray White Marine Sydney

Features

Designer	TECHNOHULL
Water (Potable) Capacity (l)	100
Hull Construction Material	Fiberglass
Hull Type	DeepV 2ventilated steps
Deck Construction Material	Teak
Country Origin	Greece
Length (feet)	34
Length (m)	10.3
Beam/Width (m)	2.8
Displacement	2500kg with Engines
